

A Quick Guide to TennCare Services

Bureau of TennCare
May 2006

Notes

This guide is an alphabetical listing of covered and non-covered services, products, and supplies. This is not meant to be an exhaustive guide of all TennCare coverage policies nor does it list all TennCare-covered or non-covered services.

A listing of TennCare-covered services, products, and supplies can be found in TennCare Rules & Regulations at:

1200-13-13-.04 [TennCare Medicaid]

1200-13-14-.04 [TennCare Standard]

A listing of non-covered services, products, and supplies can be found in TennCare Rules & Regulations at:

1200-13-13-.10 [TennCare Medicaid]

1200-13-14-.10 [TennCare Standard]

TennCare's web site:

<http://www.state.tn.us/tenncare/>

This Quick Guide replaces the one dated January 2006.

The purpose of this “Quick Guide” is to provide a fast and easy way for people to identify what services, products, and supplies are covered by TennCare. This is not an exhaustive discussion of TennCare coverage policy, nor is it a legal document. It is simply a reference guide to services, products, and supplies that are listed in other TennCare documents as being either covered or non-covered by TennCare.

With each item is a TennCare rule cite and/or TennCare Contractor Risk Agreement (CRA) cite where more information can be found. The fact that a service, product, or supply is not mentioned here does not necessarily mean it is or is not covered under certain circumstances. **All** services covered by TennCare **must be** medically necessary; when the word “covered” is used, it means that this item is covered but only if medically necessary.

Items with a “•” have more detail that can be found in the TennCare rules.

Exception to General and Specific Exclusions: COST EFFECTIVE ALTERNATIVE (CEA) – As approved by CMS and/or authorized by TSOP 032, each MCC has sole discretionary authority to provide certain cost effective alternatives when providing appropriate medically necessary care. These services are otherwise excluded and are not covered services unless the MCC has followed the procedures set forth in TSOP 032 and opts at its sole discretion to provide such requested item or service.

[Rules 1200-13-13-.10 & 1200-13-14-.10; MCO CRA § 2-3h]

Abortion – Abortions and services associated with the abortion procedure are covered only if the pregnancy is the result of an act of rape or incest; or in the case where a woman suffers from a physical disorder, physical injury, or physical illness, including a life-endangering physical condition cause by or arising from the pregnancy itself, that would, as certified by a physician, place the woman in danger of death if the abortion is not performed. The “Certification of Medical Necessity for Abortion” is required.

Non-Emergency Transportation – Covered as necessary for enrollees lacking accessible transportation for TennCare-covered services. The travel to access primary care and dental services must meet the requirements of the waiver terms and conditions. The availability of specialty services, as related to travel distance, should meet the usual and customary standards for the community. However, in the event the MCO or BHO is unable to negotiate such an arrangement for an enrollee, transportation must be provided regardless of whether or not the enrollee has access to transportation. If the enrollee is a child, transportation must be provided for the child and an accompanying adult. However, transportation for a child shall not be denied pursuant to any policy which poses a blanket restriction due to enrollee's age or lack of parental accompaniment. Tennessee recognizes the "mature minor exception" to permission for medical treatment.
